

## Difficulty Vs. Originality Axis - Baseline

Thinking about your Great Work, plot a point on this graph that indicates how original you believe your Great Work to be, as well as how difficult you believe it is to share your Great Work with your right audience at this time. Try not to over-think this exercise. It's just a gut response. We will revisit this graph later in the course.

### How original is your Great Work?

(Remember that your "onlyness" probably figures into your Great Work, too.)

1 2 3 4 5 6 7 8 9  
Not very original                      Somewhat original                      Nothing else like it

### How difficult is it to share your Great Work with your right audience?

1 2 3 4 5 6 7 8 9  
Easy                      Somewhat difficult                      Incredibly hard

Now, find the coordinates for those numbers on the graph below.:
